

This Quick Reference Guide (QRG) shows you how to view your academic progress in the Workday mobile app. More information about understanding your academic progress can be found in this [guide](#). Any questions or concerns you have regarding your academic progress should be directed to [your academic advisor](#).

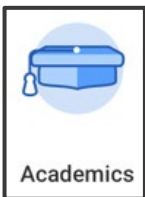

VIEW YOUR ACADEMIC PROGRESS

From the Workday Mobile App Home page:

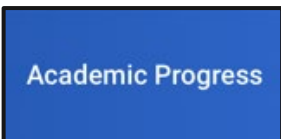

1. Select **Apps** from the bottom Menu.

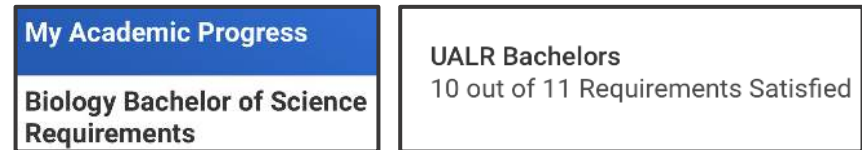

2. Select **Academics** from the list of Apps.

3. Under Educational Objectives select **Academic Progress** from the list.

4. The next screen displays your **Program of Study** and the requirements to satisfy or complete your program. In the example below the student is in the Biology Bachelor of Science Program of Study and has completed 10 of the 12 requirements for their program in the Biology Bachelor of Science area.

 **Note:** Most Programs of Study include multiple degree requirement areas. For example, a program may have bachelor's requirements that apply to all students, sometimes called general education or core courses, as well as major-specific requirements such as Biology bachelor's requirements.

5. Select a **Requirement** area to view what has and has not been satisfied. Using the example above we can see the student still needs to satisfy their Core Social Sciences requirement. Satisfied requirements will show the courses that met the requirement.
