

This quick reference guide (QRG) explains how to view your course schedule in the Workday mobile app. The schedule will only display courses you are officially registered for, so any waitlisted courses will not appear. To review waitlisted or pending course registrations, you'll need to access the full Workday site on a computer.

## VIEW YOUR SCHEDULE

From the Workday Mobile App Home page:

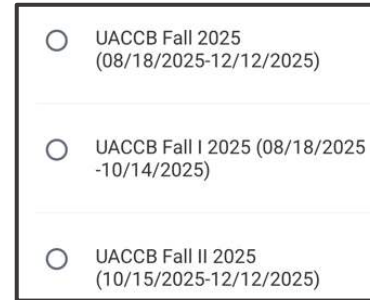

1. Select **Apps** from the bottom Menu.

2. Select **Academics** from the list of Apps.

3. Under Course & Saved Schedules select **View My Course Schedule** from the list.
4. (if applicable) Select the **Academic Period** you want to view from the dropdown list. If an academic period selection does not display, skip to step 6.

 **Note:** If your institution uses multiple academic periods within a term, as shown in the example above, you'll need to select each one individually to view your course registrations—for example, Fall 2025, Fall I 2025, and Fall II 2025. Currently, the mobile app does not provide a way to view all course registrations at once unless they fall within the same academic period.

5. Click **Done** in the top corner of the screen.
6. Review your **Course Schedule**.
7. Click **Calendar View** to see a block and grid view of your schedule.
